

# Ideal Date

By: Madison Malone

# Location

Dinner and a movie.

Go eat at a mexican place, El Sombrero, then go see a funny movie.

# Transpotation

I would prefer my date to pick me up at my house in his truck, or whatever he drives, and meet the other couple at the restaurant.

# Clothes

I would wear a cute semi casual top with a pair of jeans, and some sandals, I would probably curl my hair and wear matching jewelry.

# Numbers of People

Another couple to tag along on the date would be great, so total number of people would be 4.

# Story-Line with Time schedule

My date would pick me up at 5:45 and we would meet the other couple at El Sombero at 6 then we would go to the movie at 7:30 and my date would take me home after the movie and I would get home at about 9:30.

# Total cost

Dinner for 2 =\$20

2 movie tickets =\$18

2 drinks =\$8

Gas =\$10

Total =\$56
